Johnston motioned, Fousek seconded to approve agenda

Johnston updated the board on the Park Improvement Project. They have an opportunity to purchase the planned playground equipment at half price, if they buy it now. Thanks to a Facebook campaign, they are about $4500 short of their needed amount. The Town of Coloma reached out to see if the Village was going to contribute. They will match what we do. A couple of those present spoke in favor of the project and how far they had come largely with community donations. Anacker explained that they didn't plan to ask for tax money to support this project, however the savings was too great to not pursue every option possible to be able to order the equipment.

Martin motioned to donate $5000 now and put $5000 in the budget for next year, as long as the Town was willing to also donate. Fousek seconded the motion. Motion carried.

Johnston motioned, Martin seconded to adjourn. Motion carried, meeting adjourned.
